

# Make Any Surface Magnetic-Receptive

**RubberSteel™  
Magnetic-Receptive Sheet  
Plus Your Application...**

*A Match  
Made In  
Heaven*

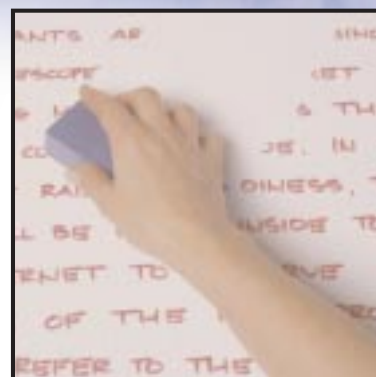

Makes wood, plastic, aluminum, concrete, tile, plaster, drywall and other surfaces magnetic-receptive.

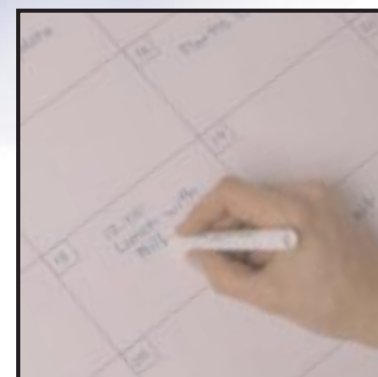

No sharp edges; won't rust. Cuts easily with knife or scissors; can be stamped, scored or punched.

Lays flat or wraps smoothly around curved surfaces.

Available in uncoated, adhesive back, and write-on/wipe-off front with adhesive back.

Better than metal for planning, message and menu boards; trade show displays; and more.
