Magnetize Post-Press.

Let us help you increase your product offering by including printed magnets!

Handheld Magnetizer.

- Magnetize your magnetic sheeting after printing or lettering.
- No electricity required
- Perfect choice for low volume and occasional jobs.
- Lightweight and durable
- 6" (152.4 mm) wide per pass magnetizing capability provides a minimum 85 lbs. per square foot (415 kg per square meter) magnetic pull strength on 30 mil Magnum Magnetics sheeting.
- Comes with durable storage case for protection when not in use, instruction sheet, and view screen for viewing magnetic pole lines

WARNING: Magnetizer contains strong permanent magnets. People with sensitive life supporting electronic equipment such as pacemakers or implantable cardioverters should not operate the magnetizer and a minimum clearance distance of 12 inches from the unit should be maintained.
