

Magnum[®] High Energy Portable Desktop Magnetizers

WARNING: Magnetizer contains strong permanent magnets. People with sensitive life supporting electronic equipment such as pacemakers or implantable cardioverters should not operate the magnetizer and a minimum clearance distance of 12 inches from the unit should be maintained.

Model #	Material Width	Magnetization Pattern	Pull/lbs. per sq. ft. (kg perm ²)
High Energy: PDM16-HE	13" (330.2 mm) maximum	16 PPI	60 (293)
Patent Pending. 16 PPI (poles per inch) is recommended for Magnum Magnetics [®] MuscleMag [™] High Energy magnetic sheeting that is 0.017" (.43 mm) overall thickness.			

Magnetize Post-Press.

Let us help you increase your product offering by including digitally printed high strength car sign magnets. Use the high energy desktop magnetizer to magnetize Magnum's MuscleMag[™] digitally printed high energy flexible magnetic material.

Portable Desktop Magnetizer

- Economical solution for magnetizing small jobs
- Close the case and store it when not in use
- High speed magnetization at 60 fpm (18.2 mpm)
- Integrated feed tray for easy feeding
- Guide on feed tray to ensure consistent magnetization
- Durable and reliable
- Comes with instruction manual and viewscreen for viewing magnetic pole lines

General Specifications:

Magnetizes at 60 fpm (18.2 mpm), enclosed chain drive, constructed of stainless steel, aluminum and plastic. Approximate product dimensions: 19" Long x 15" Wide x 7" High (48.2 cm x 38.1 cm x 17.7 cm) (with case closed) Weight: 29 pounds (13.1kg).

Power Requirements:

Uses standard 15A 120V outlet (actual power requirement 2A)

★ Quality Made in the USA ★
