
Sign in a Tube® Magnetic Vehicle Signage

A Revolutionary Packaging Concept for Magnetic Vehicle Signage

- ✓ Convenient
- ✓ Neat
- ✓ Protective
- ✓ Space-Saving

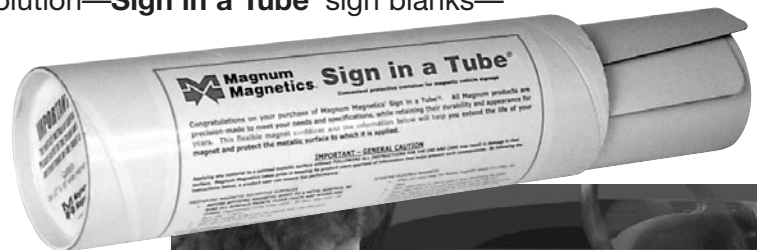

Protection and safety. If not properly cared for and protected, magnetic vehicle signage can become scratched, punctured, warped or misshapen. A scarred or punctured sign fails to project the professional image you and your customers desire; improper usage and/or care of a sign can cause damage to your vehicle as well as to other vehicles on the road.

Now Magnum Magnetix's simple, patented solution—**Sign in a Tube®** sign blanks—solves these dilemmas and more....

Conveniently-stored sign blanks.

Each sturdy tube contains two 30 mil (.76mm) printable white magnetic sheets.

Two standard sizes are offered with the choice of either rounded corners or square corners. These can be silk-screened or vinyl-lettered to create bold, attention-grabbing vehicle signs. Care and cleaning instructions are printed right on the side of each tube for quick, easy reference by the user.

Multiple advantages. When not in use, blank or printed signs can be safely stored in the tube, protected from many of the problems and dangers common to magnetic vehicle signage. The **Sign in a Tube®** package makes storage neat, orderly and space-saving, too!

Our promise. Magnum Magnetix provides superior customer service and high-quality flexible magnetic sheet, strip and custom profiles, all at competitive prices. That's our promise... and it's your assurance of satisfaction from *The Force in Flexible Magnetix®*.

Ask your Magnum salesperson about additional size, color, finish and top-coating options.

Tolerances: Widths: +/- .0312" (.79 mm); Lengths: +/- .0625" (1.59 mm)

* Minimum thickness includes vinyl.

**Minimum pounds pull. Contact us for information about average pull strengths.

Weatherability

Magnum® brand flexible magnetic sheeting performs well in adverse weather (such as rain, sleet and snow), and in temperatures from -15° F to 160° F (-26° C to 71° C).

Magnetization

Our state-of-the-art, multi-pole magnetization method provides optimal holding power

for affixing signs to painted or coated metallic surfaces.

Magnum Also Provides...

Custom packaging, custom cut sheeting and extrusions in bulk, vinyl, paper and adhesive surfaces in a variety of colors. Ask our customer service representative for information and assistance.
